

Dockets Management Branch (HFA-305)
Docket No. 98N-1265
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Without my progesterone wafers my cycles would be a
nightmare. I am trying to conceive and when we are unsuccessful,
my progesterone is the only thing that keeps me regular. I also know
that it helps to protect against miscarriages. I don't know of any other
pharmacy where I can get my prescription except at "Women's Health
America Group." If I can't get my prescription, my cycles will
once again go "haywire". It will truly change my life - and
definitely for the worse! I have never been regular w/o being on
birth control until my doctor prescribed progesterone wafers.
Thanks to my "miracle pills", I now have normal and regular cycles.
I ask that you please DO NOT pass this M.O.U. If it does pass,
my life will change without my progesterone wafers. What would I
and other women like me do then ???

Sincerely,

Evelyn Marie Marshall
